

SPRING 2019

THE INVESTIGATOR

A PUBLICATION OF ASG

Deni Grimslid

Deni joined Advanced Surveillance Group in March 2018 as a Private Investigator. Before joining the ASG team, she graduated in May 2012 with her Paralegal degree and worked for the USPS as a Rural Carrier Associate. Outside of work, Deni enjoys spending time with her children, family and close friends, watching her kids participate in sports, going to concerts and festivals, reading, drawing, camping and spending time outdoors.

We're Watching Out for You!

Video Links Are Here!

In addition to a final copy of your surveillance videotape on DVD, we will now be emailing you a video link for quicker, easier viewing of your evidence via a web based program called WeTransfer. You will be able to share this link with any employer, doctor, attorney or party who is involved in your claim. We have received a lot of great feedback on this service!

Pointer from Patrick

Don't miss the opportunity to find your "bad egg" claimant during their spring cleanup activities! This is an excellent season for surveillance!

ASG conducts round table discussions about surveillance and investigation techniques that may benefit your company during a catered lunch provided by us. We can share our seasoned expertise to better inform you about surveillance requests and how we can help lower your overall claims exposure. We will also enjoy the time spent with you to hear feedback on how we can better service your needs and answer any questions you have. **Contact ASG to schedule lunch, and we'll take care of the rest!**

ILLINOIS LICENSE

We are excited to announce our expansion into Illinois! Perfect timing for your spring and summer surveillance requests. ASG currently holds licenses in Wisconsin, Iowa, Missouri and recently passed the test for Illinois. We are completing the paperwork process now and will be up and running there in the coming months!

Spring has Sprung

The weather is finally getting warmer, which means spring cleanup activities are underway. Time to catch your claimants working outdoors; raking, vehicle cleaning, planting flowers, gardening, or picking up months of yard debris and dog waste, we want to catch them!

Please be reminded that this is the start of a very busy season for surveillance. We will do our best to accommodate rush or next day requests. Get your referrals in early to ensure adequate preparation time and **results when you need them!**

ASG Announcements

- ASG would like to welcome new Investigator Amy Ridling to our team!
- Look for us at the following events:
 - Monthly MIAA Meetings
 - WI Council of Self Insurers College May 21-23
